

**listed?**

That many monsters total.

**For quest card 517, what counts as different monster types?**

Each monster stat card (the large square ones) depicts a different monster type. So, for instance, Inox Guards and Bandit Guards are two different monster types and each different boss is a different monster type.

**Do random scenarios count for quest card 518?**

Yes.

**For quest card 519, can I lose progress for this if I lose check marks through events? Do I gain progress if I gain check marks through events or bonuses other than battle goals?**

No, only battle goals count as progress towards this quest. It may be necessary to track this separately in the notes section.
